

## DR. MATTHIAS KANNWISCHER

Matthias J. Kannwischer is the Research Director at the Chelpis Quantum Tech & Quantum Safe Migration Center (QSMC) - a newly established center based in Taiwan aiming to accelerate the adoption of quantum-safe cryptography. He received his PhD in applied post-quantum cryptography from Radboud University (Nijmegen, The Netherlands) and was supervised by Peter Schwabe and Bo-Yin Yang. Prior to joining Chelpis Quantum Tech and QSMC, he was a post-doctoral researcher at Academia Sinica (Taipei, Taiwan) and a PhD student at the Max Planck Institute for Security and Privacy (Bochum, Germany) and Radboud University (Nijmegen, The Netherlands). He is a co-submitter of UOV and MAYO, and a maintainer of the pqm4 post-quantum software framework.
